GLOBAL NEXUS PLAN — IMPORTANT QUESTIONS & ANSWERS (Q&A;)

GENERAL INFORMATION

Q1. What is Global Nexus?

Global Nexus is a global, community-based platform designed to provide people with a decentralised and smart-contract-based system. Decentralised means that the system operates without any single central authority; no company or individual has complete control over it, and all participants working within the system are equal participants.

Q2. What technology is used in Global Nexus?

The plan uses Smart Contract Technology and the BNB Smart Chain (BEP20) network. It is fully decentralised, meaning that it has no single owner and is designed to operate transparently and equally for all users.

Q3. Which wallets can be used?

Web3 decentralised wallets such as Trust Wallet, TokenPocket, and MetaMask Wallet can be used. The wallet must be configured for the BNB Smart Chain (BEP20) network.

Q4. What is the Joining Package?

The Joining Package is 31 USDT (BEP20). Of this amount, 15% goes to the Magic Pool.

Q5. How many types of income are described in the plan?

The plan describes five types of income:

1. Direct Referral Income (70%)
2. Level Upgrade Income (Sponsor 60%, Placement 40%)
3. Global Matrix Income
4. Global Magic Pool Income
5. Global Team Level Income

Q6. What is Direct Referral Income?

Direct Referral Income is the income associated with members who join through your direct referral link. There is no limit on the number of direct referrals; the more direct referrals you make, the greater the income described under this structure.

Q7. How much income is received from Direct Sponsors?

According to the plan, from the first two direct referrals, you receive $12.80 income, and $45 is used to upgrade your ID level. After that, from the third Direct Sponsor onward, you continue to receive $21 per person.

Q8. How is Level Upgrade Income distributed?

Level Upgrade Income is distributed with 60% allocated to the Sponsor and 40% allocated to the Placement upline.

GLOBAL MATRIX

Q9. What is Placement, and how is the 40% income received?

Placement is an important part of the team-level income plan. A 2×2 Matrix Tree is formed, which fills from Top to Bottom and Left to Right. As new IDs enter your team, they are placed within this tree. When a placed ID upgrades its level, the ID under which that placement is positioned receives 40% Placement Income.

Q10. What is the Global Nexus Matrix?

It is an income system based on the Global Team structure, in which there are 3 people on the 1st Level and 9 people on the 2nd Level after you, for a total of 12 people. According to the plan, this can generate turnover of approximately six times the package value. For example, if you purchase the first Matrix Package for $30, the plan states a total distribution of $171.

Q11. What does the 50%–50% income distribution in the Global Matrix mean?

According to the plan, after a 5% deduction for the Magic Pool from the total turnover, the remaining amount is distributed equally: 50% to the First Level and 50% to the Second Level.

Q12. How many packages are available in the Global Matrix, and what are they?

The Global Nexus Matrix has a total of 9 packages:

1. Global Nexus Matrix: $30
2. Star Matrix: $90
3. Silver Star Matrix: $150
4. Gold Matrix: $450
5. Ruby Matrix: $900
6. Diamond Matrix: $1,800
7. Royal Diamond: $3,000
8. Crown Matrix: $7,500
9. Royal Crown: $15,000

Q13. What is the total income in the Matrix Plan?

According to the plan, the combined total potential income across all 9 Matrix levels is $173,520 USDT.

MAGIC AUTO POOL

Q14. What is Magic Auto Pool Income?

The Magic Auto Pool consists of a total of 6 pools, from B1 to B6. Each pool has its own eligibility requirements and specified maximum Auto Pool income.

Q15. What is the B1 Magic Pool?

As soon as you join the system, your B1 income begins. The maximum B1 income is $135. From this amount, the first $30 is used by the system to purchase the Racer Package for your next income structure, which the plan states can provide $16,410 through the Global Team Level. The stated net B1 income is $105.

MAGIC AUTO POOL — ELIGIBILITY & INCOME

Q16. What is the eligibility for B2 to B6?

The pool eligibility criteria are described in the plan as follows:

Pool	Eligibility / Conditions	Max Income	Deduction	Net Income
B1	Auto Entry	$135	$30	$105
B2	At least 4 Directs or 2 Matrix in the Team	$750	$60	$690

GLOBAL TEAM LEVEL

Q17. What is Global Team Level Income?

Global Team Level Income is described as being received from the entire system below you through a 3×3 Matrix structure across up to 7 levels. According to the plan, higher income amounts are associated with different packages: Racer, Gladiator, Tornado, Typhoon, Cyclone, and Nuclear.

Q18. What is the Racer Package?

You can purchase the Racer Package for $30 immediately after joining, or $30 can be automatically deducted from your B1 income to activate it. According to the plan, the total income across 7 levels is $16,410 USDT. Note: If you purchase it yourself, the full B1 income of $135 is received by you.

Q19. What is the Gladiator Package?

The Gladiator Package can be purchased after qualifying for B2. According to the plan, the total income from the 7-level Global Team is $35,973 USDT.

Q20. How much income is described for the Tornado and Typhoon Packages?

- Tornado Package (B3 Qualification): Total income = $68,544 USDT
- Typhoon Package (B4 Qualification): Total income = $130,644 USDT

Q21. How much income is described for the Cyclone Package?

The Cyclone Package is available upon qualifying for B5, and according to the plan, the total income is $261,288 USDT.

Q22. How much income is described for the Nuclear Package?

The Nuclear Package is unlocked upon qualifying for B6, and according to the plan, the total income is $458,136 USDT.
